This picture provides the image of:

**Set No 1**

File cabinets: TO 6000, НП 6010, Т3 6001, Т3 6003, ТМ3 8011 (double-basin sink).

Table board: 40.2000 (chemical resistant HPL plastic).

Double add-on, shelves are made of HPL plastic.

Wall-mounted cabinets: 6001, 6001, 8011.

Front faces: chemical resistant HPL plastic.

**Set No 2**

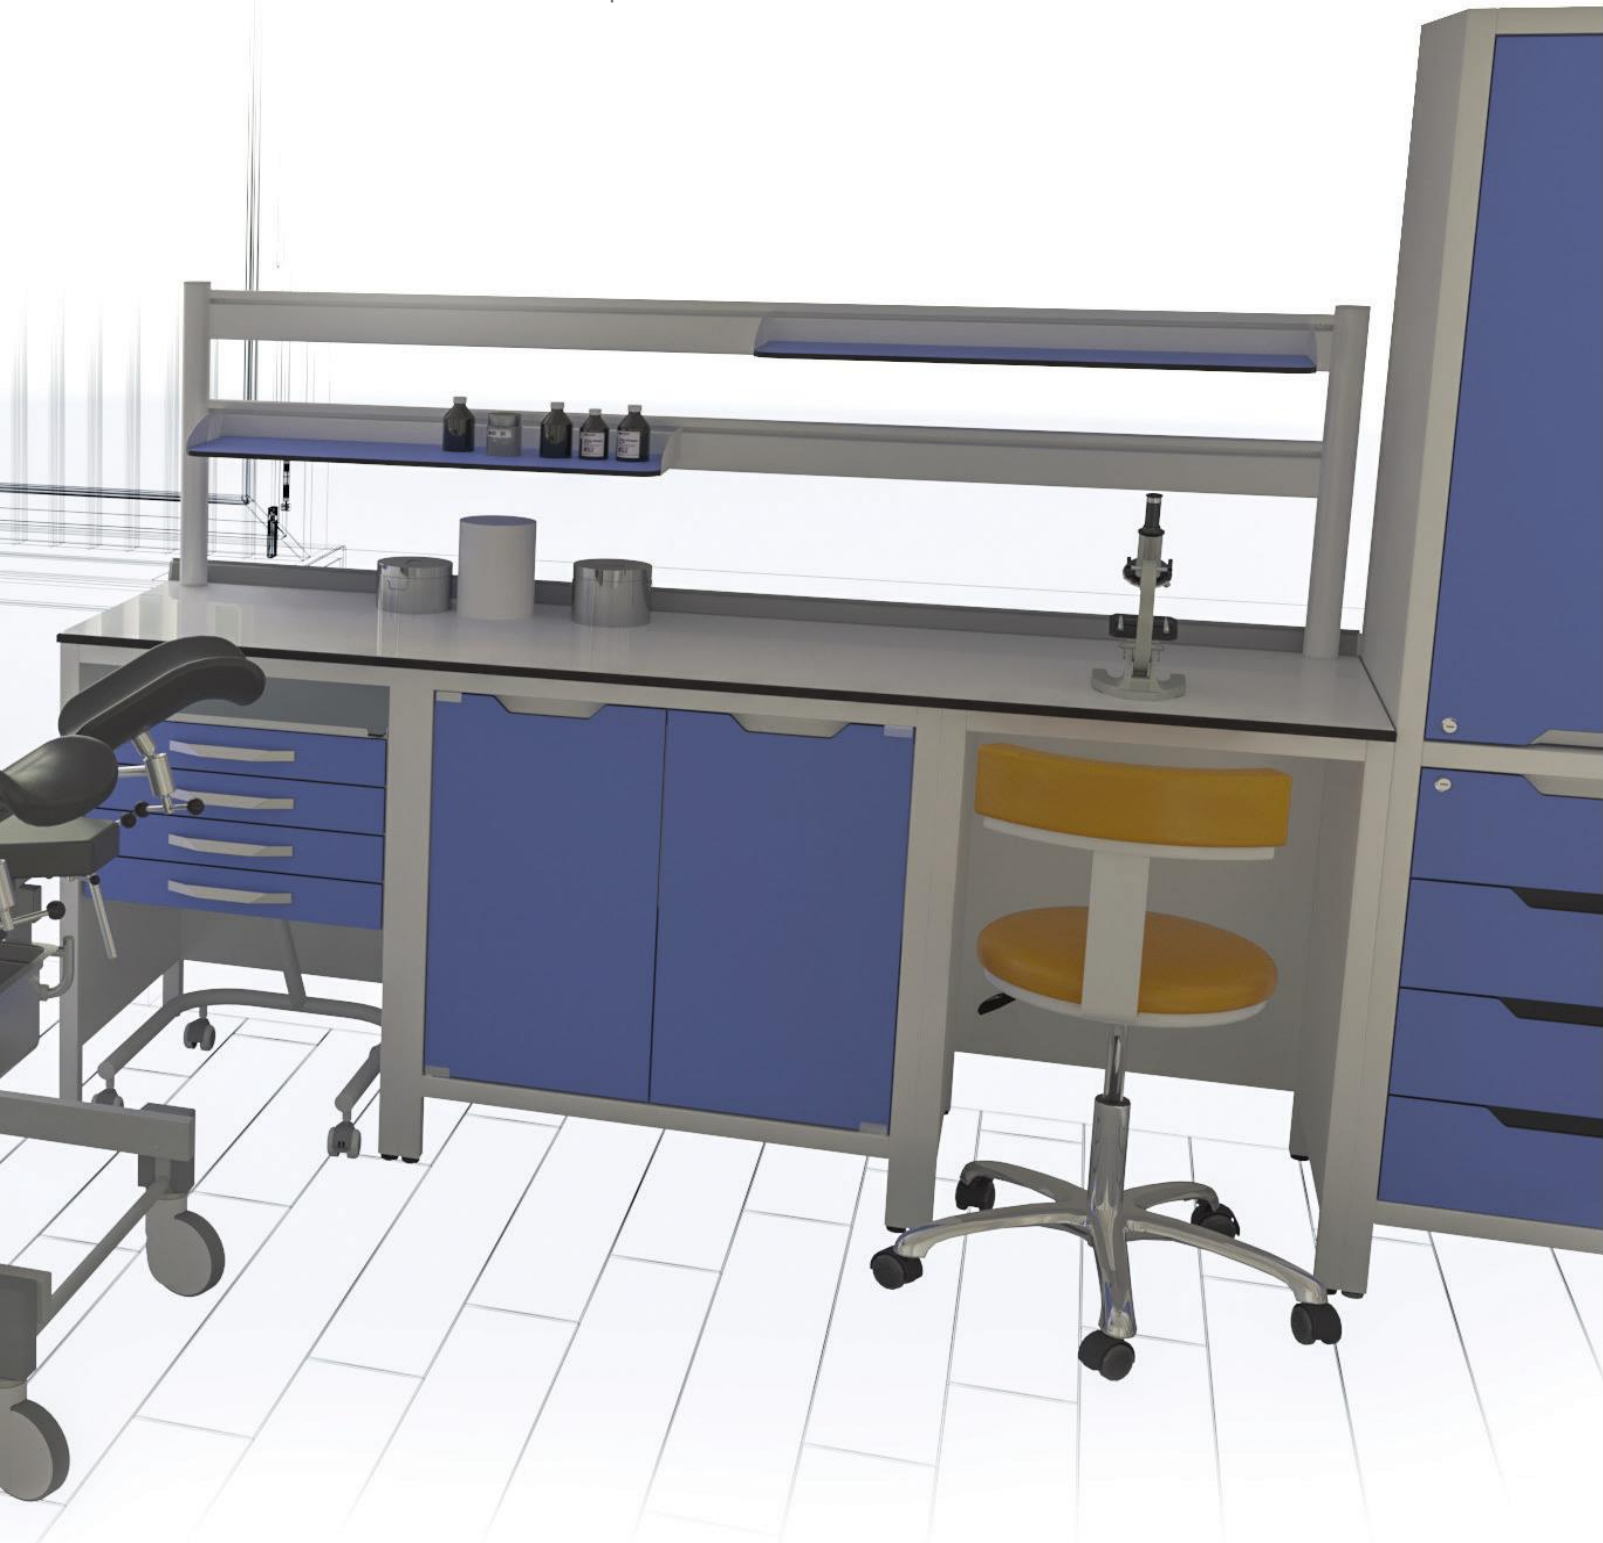

File cabinets: TO 6000, АС 6004, Т3 8011, TO 6000.

Table board: 40.2000 (chemical resistant HPL plastic).

Double add-on, shelves are made of HPL plastic.

Free-standing cabinet for tools storage.

Front faces: chemical resistant HPL plastic.

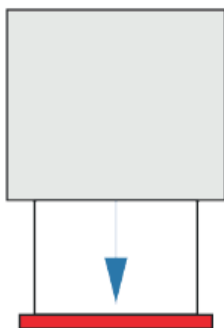

## Specific peculiarities:

- Body is made of metal and protected with polymeric-powder coating.
- File cabinet rests on adjustable supports 100 mm in height.
- Expanded customization of items. There are 2 front-face modifications and 3 table board modifications at choice.

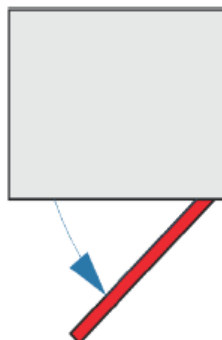

This picture provides the set of:  
 File cabinets: T3 6010, T3 6003.  
 Table board: 40.1000 (postforming).  
 Front faces: chemical resistant HPL plastic.

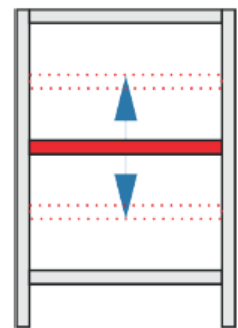

Drawer pulling out  
500 mm

Front face opening  
115 degrees

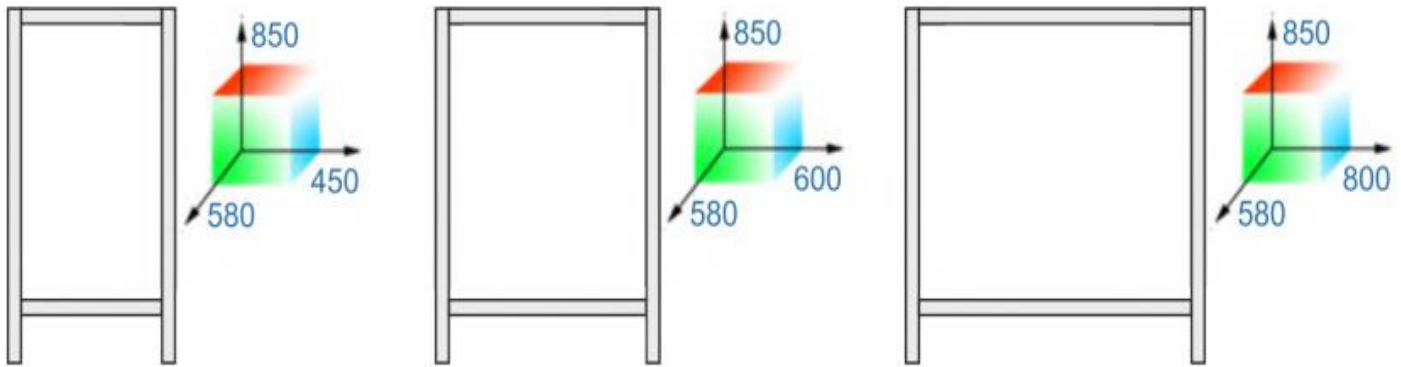

Shelf adjusting  
3 positions

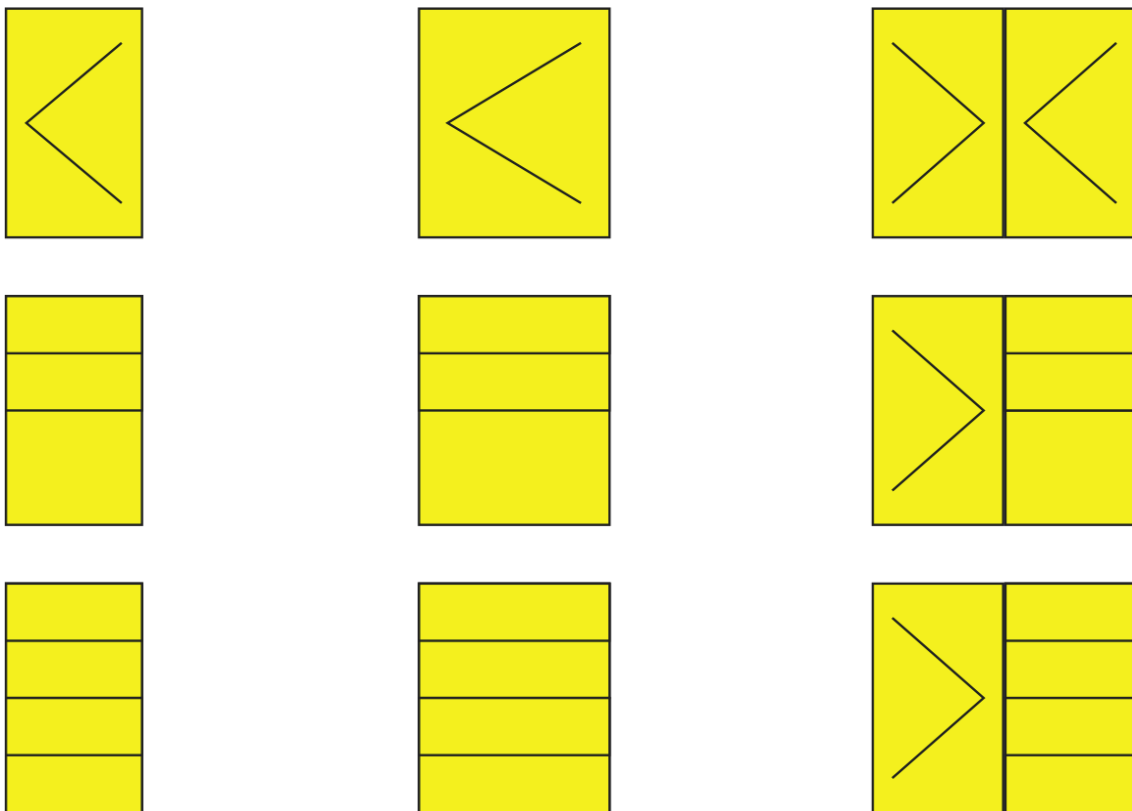

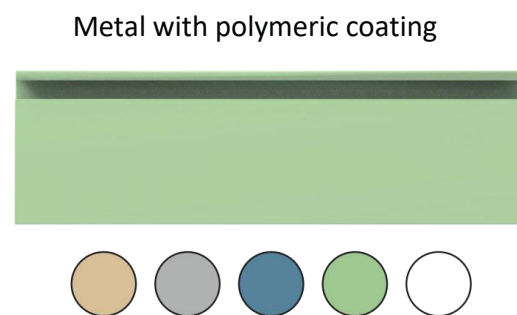

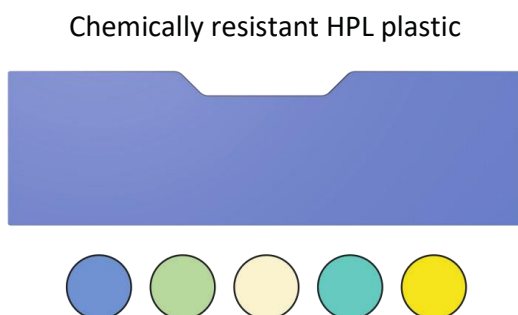

## Size range of fixed file cabinets

## Front faces configurations

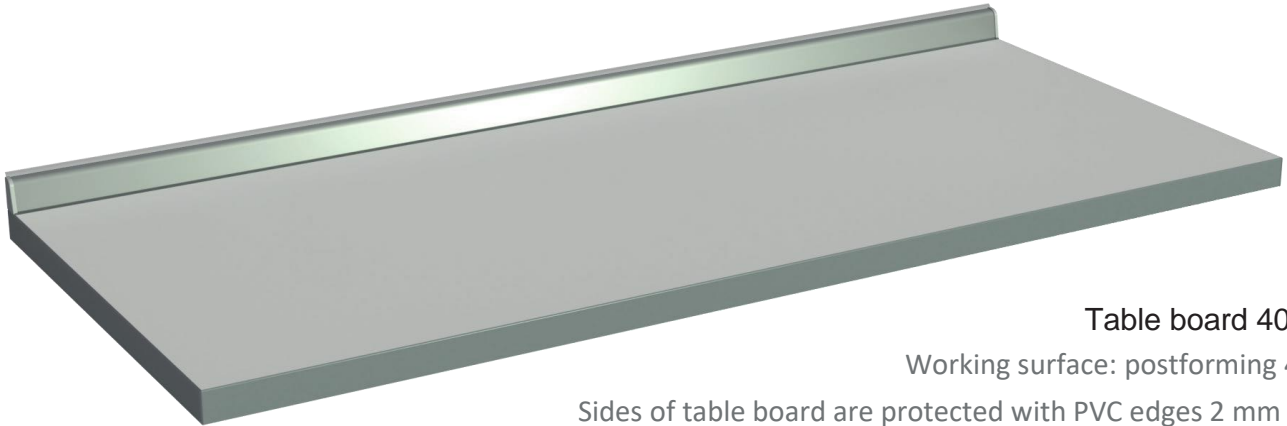

## Front faces options

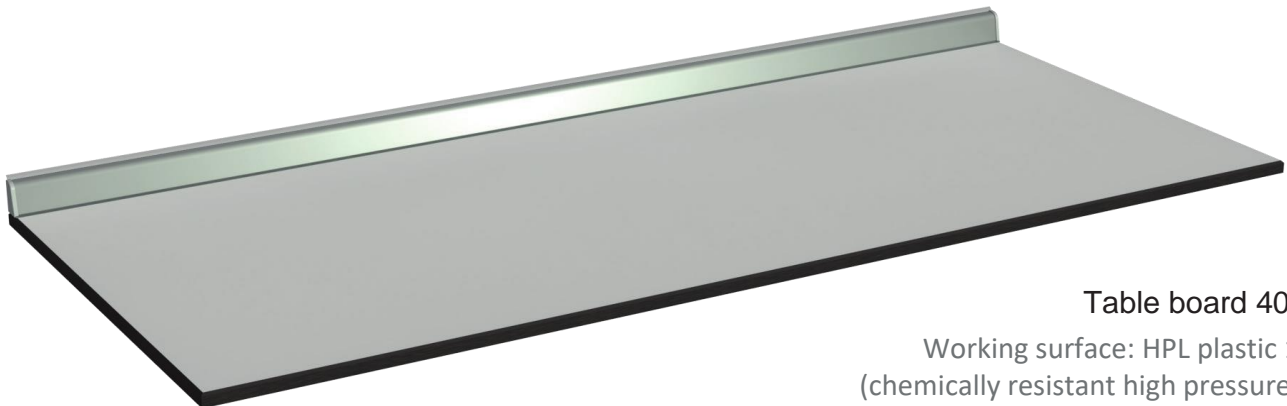

## Specific peculiarities:

- Three options available (postforming, HPL plastic and stainless steel).
- High level of resistance of working surface to sanitary treatment.
- This item covers adjacent file cabinets and thus unifies them into one common piece.

**Table board 40.1000**

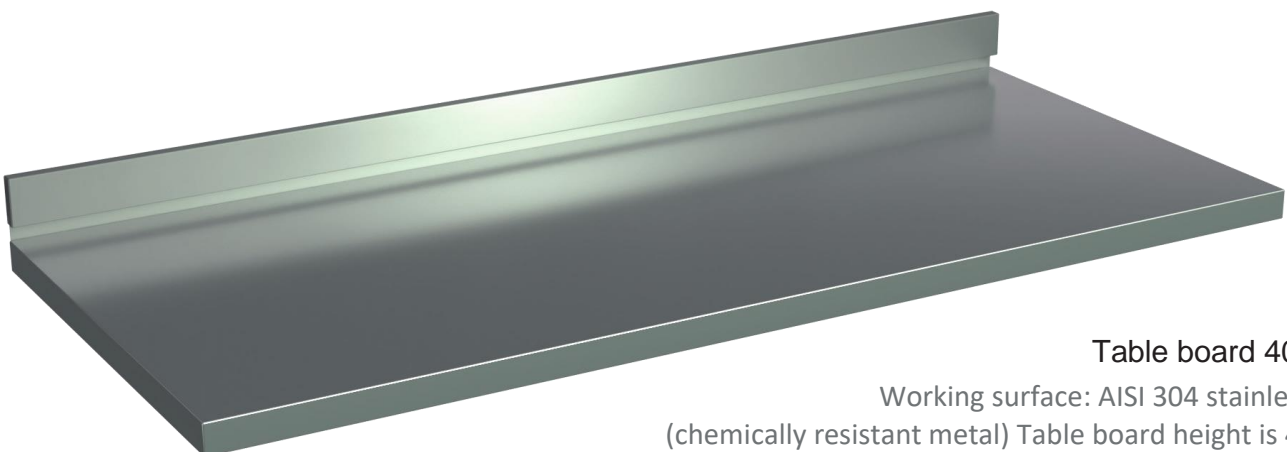

Working surface: postforming 40 mm.

Sides of table board are protected with PVC edges 2 mm in thick  
Wall-adjacent skirt: AL profile 45 mm in height (option).**Table board 40.2000**

Working surface: HPL plastic 16 mm.

(chemically resistant high pressure plate).

Wall-adjacent skirt: AL profile 45 mm in height (option).

**Table board 40.3000**

Working surface: AISI 304 stainless steel

(chemically resistant metal) Table board height is 40 mm.

Wall-adjacent skirt is made of stainless steel; height is 100 m (option).

#### Mineral stone sink

Sink options: single/ double-basin.

Tap options: ball type/ elbow type.

This item is to be installed on TM3 and TMO file cabinets.

#### Stainless steel sink

Sink options: single/ double-basin.

Tap options: ball type/ elbow type.

This item is to be installed on TM3 and TMO file cabinets.

T3 - enclosed type file cabinet (front side of file cabinet is covered with front face).

TM3 - enclosed type sink (front side of file cabinet is covered with front face).

TO - opened type file cabinet (no front face at front side).

TMO - enclosed type sink (no front face at front side).

T3 6001 (opening to the right)  
T3 6010 (opening to the left)

File cabinet with hinged door  
(door is lockable type).

This item is fitted with quickly  
dismounting adjustable shelf (3  
positions to separate the inner  
space as 1/2 or 1/3).

T3 6003

File cabinet with three pullout  
drawers (pulling out by means of  
ball type guides).

Inner dimensions of upper drawers:  
490x510x100 mm, bottom drawer  
dimensions: 490x510x260 mm.

Upper drawer is lockable type.

T3 6004

File cabinet with four pullout  
drawers (pulling out by means of  
ball type guides).

Inner dimensions of drawers:  
490x510x100 mm.

Upper drawer is lockable type.

T3 8011

File cabinet with two hinged  
doors.

This item is fitted with quickly  
dismounting adjustable shelf (3  
positions to separate the inner  
space as 1/2 or 1/3).

T3 8031 (left-hand drawers)  
T3 8013 (right-hand drawers)

File cabinet with hinged door and  
three pullout drawers.

This item is fitted with quickly  
dismounting adjustable shelf.

Inner dimensions of upper drawers:  
340x510x100 mm, bottom drawer  
dimensions: 340x510x260 mm.

T3 8041 (left-hand drawers)  
T3 8014 (right-hand drawers)

File cabinet with hinged door and four  
pullout drawers.

This item is fitted with quickly  
dismounting adjustable shelf.

Inner dimensions of drawers:  
340x510x100 mm.

\* - pictures demonstrate file cabinets with series 40.2000 table board (to be purchased separately),  
front faces option - HPL plastic.

TM3 6001 (opening to the right)  
TM3 6010 (opening to the left)

File cabinet with hinged door. This item is supplied with cut-in single-basin sink (complete with a tap and S-tube).

Back wall of file cabinet is fitted with a cut purposed for convenient access to the utilities. There is a shelf option to mount.

TO 6000

File cabinet with compartment. This item may be used as a working desk.

Model is capable for shared use with mobile file cabinets of HP series.

TMO 6000

File cabinet with compartment is supplied together with cut-in single-basin sink (complete with a tap and S-tube).

This item provides open access to the utilities and it is capable for shared use with mobile file cabinets of HPМ series.

TM3 8011

File cabinet with hinged doors. This item is supplied with cut-in sink (complete with a tap and S-tube).

Back wall of file cabinet is fitted with a cut purposed for convenient access to the utilities. There is a shelf option to mount.

TO 8000

File cabinet with compartment. This item may be used as a working desk.

Model is capable for shared use with mobile file cabinets of HP series.

TMO 8000

File cabinet with compartment is supplied with cut-in sink (complete with a tap and S-tube).

This item provides open access to the utilities and it is capable for shared use with mobile file cabinets of HPМ series.

\* - pictures demonstrate file cabinets with series 40.2000 table board (to be purchased separately), front faces option - HPL plastic.

Add-ons are purposed for expanding of functionality by means of hinged elements (trays, shelves, brackets) arrangement).

This picture provides the set of:  
 File cabinets: T3 6010, T3 6003, TM3 8011  
 Table board: 40.2000 HPL plastic, 16 mm.  
 Front faces: chemical resistant HPL plastic, 10 mm.  
 Double add-on L=1.2 m, Shelf: 515x250 mm, Dryer.

## Add-ons options

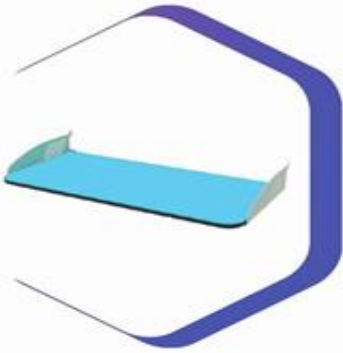

Single (355 mm in height)

Double (555 mm in height)

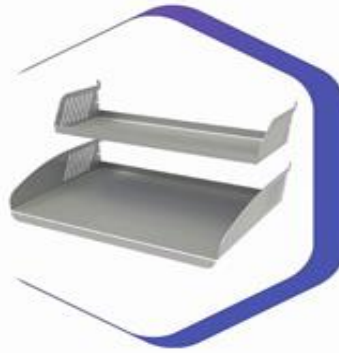

## Hinged elements for add-ons

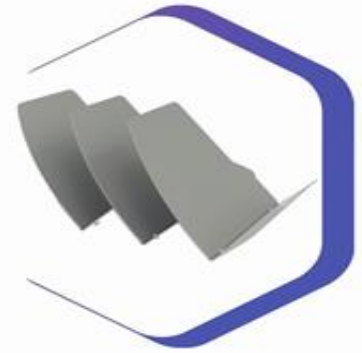

Shelf 515x250 mm

This item is purposed for storage of documents and different accessories. It is made of steel with polymeric coating and durable chemically resistant plastic. Shelf length is to be clarified when placing the order.

Tray 305x220 (113) mm

220 mm tray is purposed for storage of A4 documents.  
113 mm tray is purposed for storage of different small accessories.

Shelf for documents

This item is purposed for storage of documents and magazines. It is to be fixed on a mounting panel or attached directly to add-on item.

Mounting panel

This item is purposed for unifying of several trays into one piece (to be arranged one above another). Material is steel with polymeric coating.

Mounting profile

Profile is needed to expand the functionality of add-ons. It enables to adopt the working space of employees as per their individual needs (perforation spacing is 25 mm).

VESA bracket

This item is purposed for hanging of computer monitors. It enables to improve working surface effectiveness. Fastening standard is VESA 75/100.

## Specific peculiarities:

- Two options available (to be used together with file cabinets of TO and TMO series).
- Double self-castoring wheels (diameter is 50 mm, fitted with brakes).
- Expanded customization of items. There are 2 front-face options at choice.

This picture provides the set of:  
File cabinets: TMO 6000, T3 8011, НПМ 6001.  
Table board: 40.2000 (HPL plastic, 16 mm).  
Front faces: chemically resistant HPL plastic.

HP 6001 (opening to the right)  
HP 6010 (opening to the left)

Mobile file cabinet with hinged door (lockable type).

This item is fitted with quickly dismountable adjustable shelf.

Model is capable for shared use with file cabinets of TO 6000 series.

HPM 6001 (opening to the right)  
HPM 6010 (opening to the left)

Mobile file cabinet with hinged door.

Model is capable for shared use with file cabinets of TMO 6000 series.

AC 6002

File cabinet with two pullout drawers on a leg.

This item is fitted with removable table board (working surface is a glass/ stainless steel panel).

Model is capable for shared use with file cabinets of TO 6000 series.

HP 8011

Mobile file cabinet with two hinged doors.

This item is fitted with quickly dismountable adjustable shelf.

Model is capable for shared use with file cabinets of TO 8000 series.

HPM 8011

Mobile file cabinet with two hinged doors.

Model is capable for shared use with file cabinets of TO 8000 series.

AC 6004

File cabinet with four pullout drawers on a leg.

This item is fitted with removable table board (working surface is a glass/ stainless steel panel).

Model is capable for shared use with file cabinets of TO 6000 series.

\* - pictures demonstrate file cabinets with HPL plastic front face option.

This picture provides the set of:

File cabinets: TM3 8011, T3 6003, T3 8011.

Table board: 40.3000 (stainless steel).

Double add-on with hinged metal shelves.

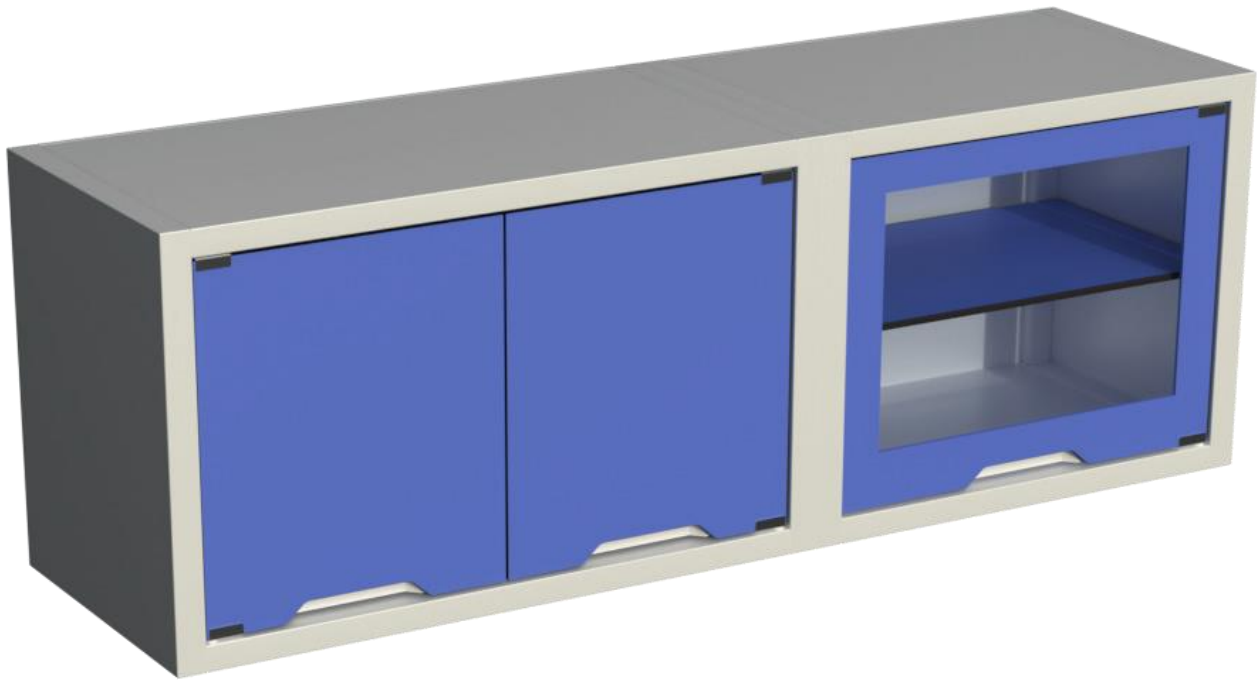

Cabinets: double-leaf type (version No 4 and version No 5)

Front faces: metal with polymeric-powder coating.

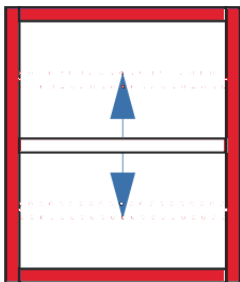

## Specific peculiarities:

- Body is made of metal and protected with polymeric-powder coating.
- Cabinets are to be attached to walls by means of adjustable latches that are part of the supply)
- Expanded customization of items. There are 4 front face options and 3 shelves options at choice.

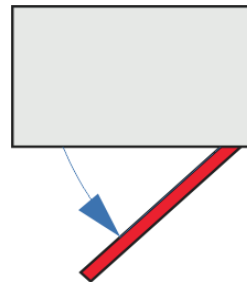

This picture provides the set of:  
 Wall-mounted cabinets: ШН 8011-22, ШН 6001-32.  
 Body: metal with powder coating.  
 Front faces: chemically resistant HPL plastic.

Shelf adjusting  
 3 positions.

A shelf will divide inner space  
 of cabinet by height at the  
 ratio 1:1 и 1:2.

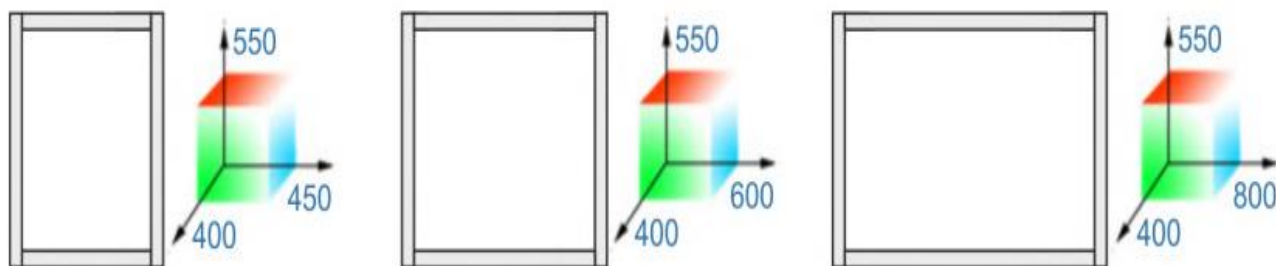

Front face opening  
 115 degrees

There are right and left hand options  
 available for single-leaf file cabinets.

This picture provides the set of:

FIXED FILE CABINETS: TMO 8000, T3 6010-21, TO 8000, T3 4503-20, TO 6000.

Table board: 40.2000, single-basin sink, tap. Add-on: single type (L=1.2 m).

Hinged elements: VESA bracket, mounting panel, shelf for documents, tray 305x220 mm.

Table-top cabinet: HC 6008-11 (for tools storage)

Wall-mounted cabinets: ШН 8011-22, ШН 6001-32.

Mobile file cabinets: НПМ 8011-21, АС.6002-24.

Specific peculiarities:

- Universal system is applicable to all type of pullout drawers with depth from 40 to 160 mm.
- Easy integration. It is not required to change/ upgrade drawer structure before use.
- Easy adjusting. Movable dividers enable to maximize storage area effectiveness.

This picture provides the set of:  
 Profile holder, h = 55 mm (2 pcs)  
 Guiding profile, h = 100 mm (3 pcs)  
 Movable divider, h = 100 mm (12 pcs)

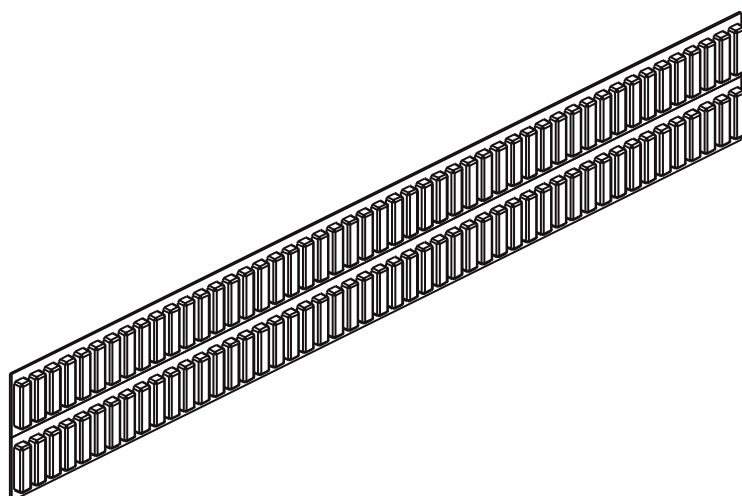

Up to 30% more to items storage space.

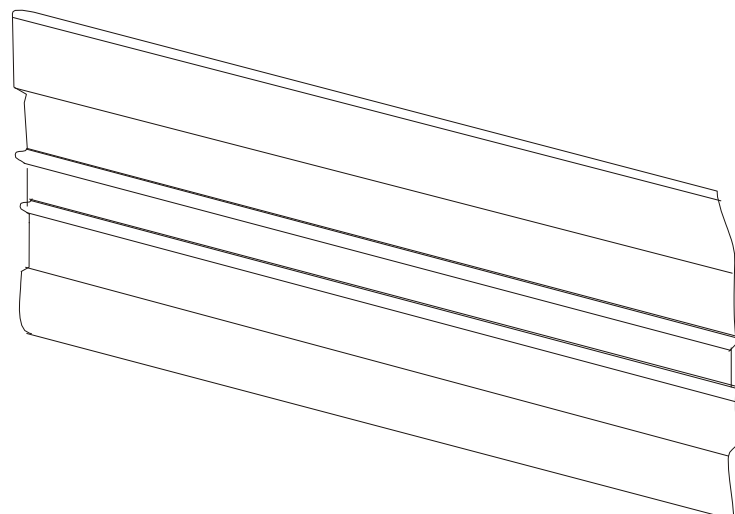

## Profile holder

Height	Length
35 mm	490 mm
55 mm	490 mm

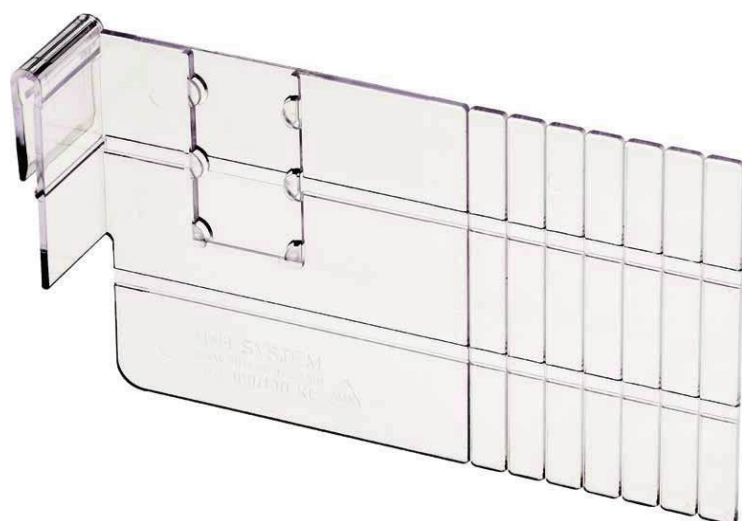

Profile holder is a segmented bar needed for fixing of guiding profiles. It item is to be mounted to inner walls of a drawer (by means of glue). Length is customized while mounting (material is to be cut with scissors).

## Guiding profile

Height	35	45	55	100	125	150
Length	Drawer L = 4 mm					

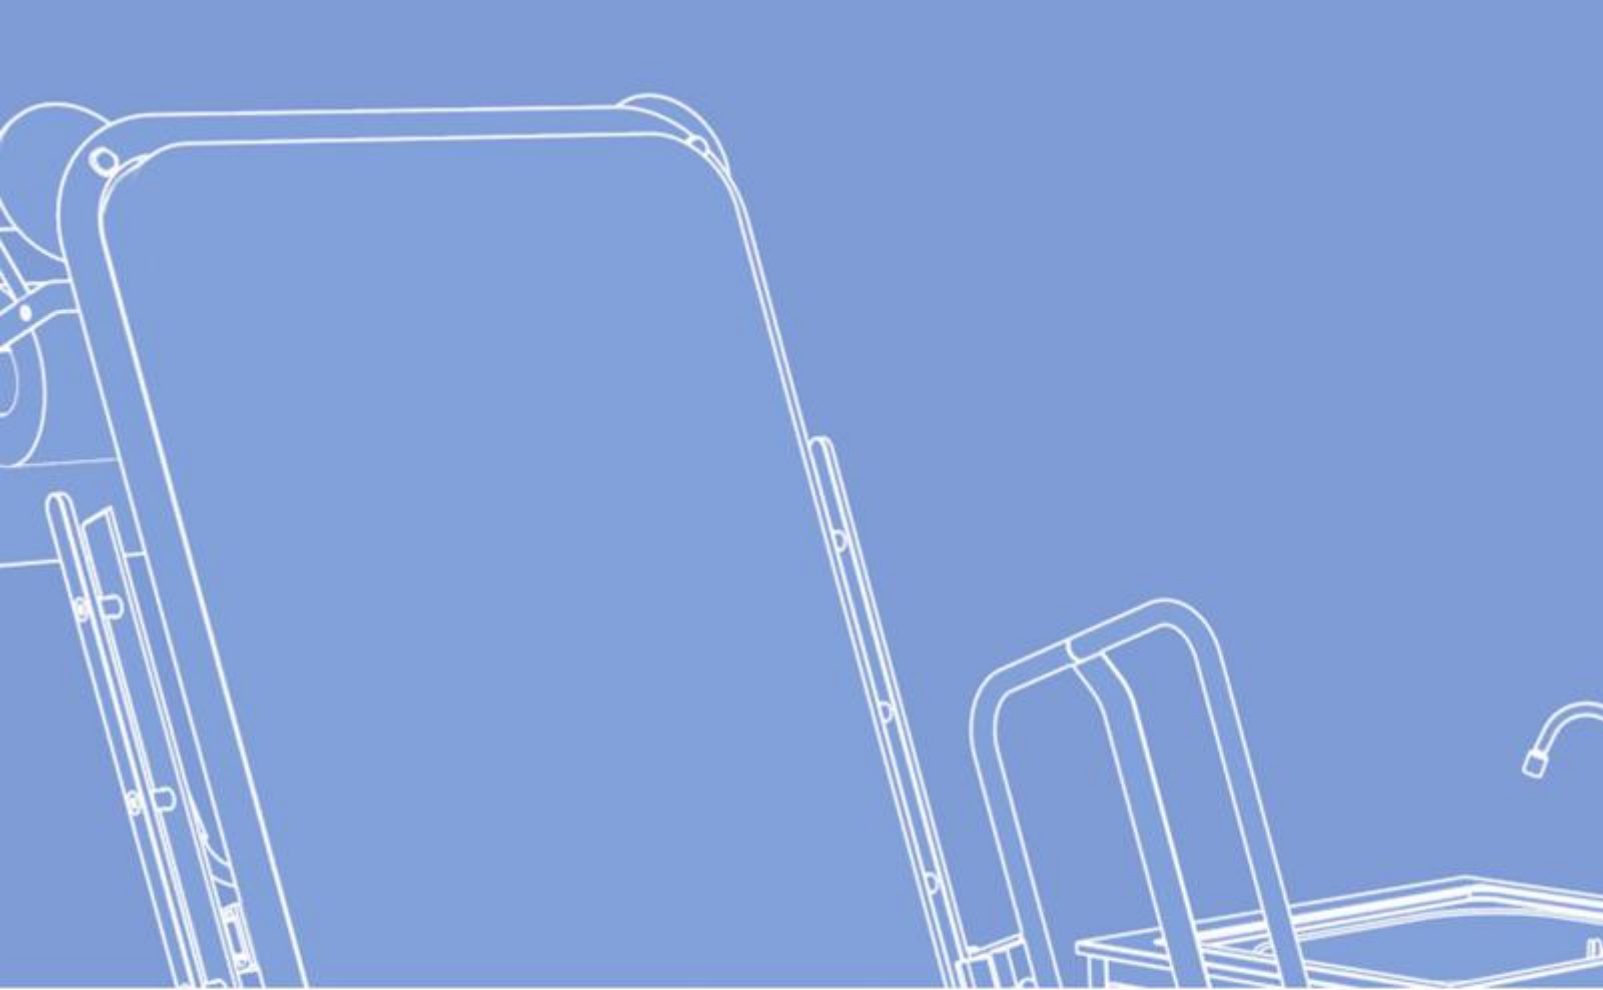

Guiding profile is made of aluminum. This item is needed for mounting of movable dividers. It is to be placed in holder's slots. Length is to be determined when making the order.

## Movable dividers

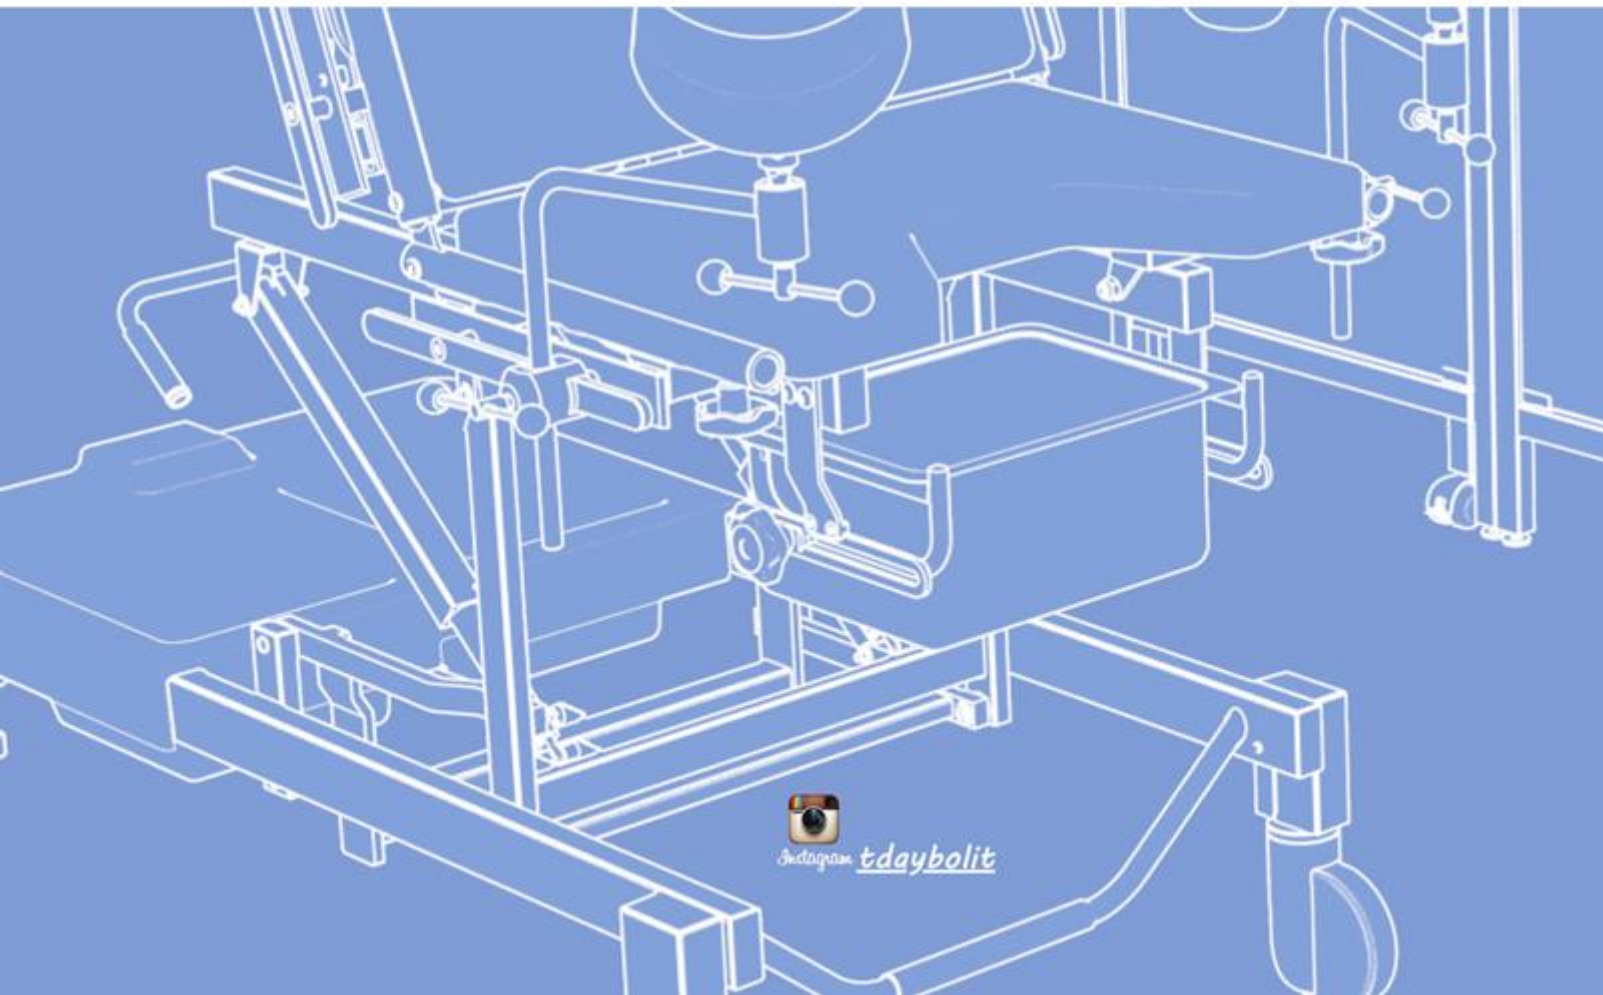

Height	35	45	55	100	125	150
Length	L max = 170 mm					

Movable dividers are made of transparent polycarbonate. This item is to be mounted on a guiding profile. Length is to be customized during mounting works (reducing is made by means removing of segments).
